

TopPage Canvas Prints are produced from top quality Canvas suitable for Banners, Stretched-Art, or as a durable cover for most any application. TopPage also uses UV Inks that protect the picture quality for decades.

Canvas when printed with our state of the art HP DesignJet 2500 and 3500 printers takes on the look of a first quality original oil painting. If the quality of the original film, digital file, transparency, or slide is high enough you can enlarge it to any size we offer. Our maximum Canvas length is 100' x 52" wide. We also have the digital capabilities of piecing multiple pieces together to create a work-of-art as large as you need.

Additionally, we can also gel coat, or brush stroke any art to recreate the original strokes of the painters brush. Our graphics artists have the capability of producing virtually anything you like and in any size needed. TopPage quality and service also extends beyond your original purchase with a lifetime warranty. We guarantee that if any workmanship does not continue to meet the TopPage standards, we will replace it.
