

The Ultimate Large Format Printing System.

significantly reduces costs...
fast output... photo quality...

HP DesignJet 3500CP

The 3500CP is fast, economical, powerful, and offers a lower cost per copy. This printing workhorse is designed for commercial use, and prints on a variety of materials, up to 54" wide by 150' long. 600 DPI Photo Quality Output and Adobe Postscript 3 RIP.

TopPage is proud to offer the Ultimate Large Format Printing System that allows its users to print on a variety of materials, up to 54" wide by 150' long. This state-of-the-art color printing system uses the HP DesignJet 3500CP as its main print engine. Taking Large Format Printing to its next level, HP technology offers advanced features at a fraction of what competitors charge. Granite combines this Adobe PostScript 3 Print Engine with the Ultimate 600Mhz Dual Pentium II PrintServer / Workstation. Running Windows NT and connected to the network via Ethernet, this setup is both versatile and fast. Now you can work from any computer on the network and output Large Format Graphics directly to this server.

Our systems also feature a complete software bundle including Adobe Photoshop, Quark Xpress, and a variety of other utilities that make your graphics and server run
